## **CHAPTER 17**

### **CAPITAL EXPENDITURE DETAILS**

(For more information refer **Annexure "E"**)

## **Explanatory notes to Table A9 - Asset Management**

1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
2. National Treasury has recommended that municipalities should allocate at least 40 per cent of their capital budget to the renewal of existing assets, and allocations to repairs and maintenance should be 8 per cent of PPE. Cacadu District Municipality does not meet these recommendations, because it does not have infrastructural assets.

# **CHAPTER 18**

## **Legislative Compliance Status**

## **CHAPTER 18**

### **LEGISLATIVE COMPLIANCE STATUS**

The promulgation of the Municipal Finance Management Act (The Act) has brought in proficiency and control measures to local government in terms of budgeting, monitoring and accounting on public funds. The Act and budget regulations have had a profound effect on local government operations that required transformation in financial discipline and planning processes. The budget preparation for 2012/2013 complies with these key requirements.

The Act and regulations have created clear reporting standards for local government that conforms to international standards. In addition to providing for improved reporting by local government, the Act stipulates that new accounting and financial standards must be complied with. The Cacadu District Municipality's electronic reporting to National Treasury has also been complied with and has also improved over time. The monthly and quarterly returns to National Treasury have been in most instances submitted on time.

In accordance with the provisions of the Act, Cacadu District Municipality has an approved Supply Chain Management Policy, which was extensively consulted on. The policy is intended to regulate the supply chain management environment within the district. Required resources (human, financial and otherwise) have been allocated to the Supply Chain Management section to enhance capacity.

The reform agenda set out through the Municipal Finance Management Act provides new accounting standards, which includes national standards such as Generally Recognised Accounting Practice (GRAP). The above mentioned accounting practice has been adhered to during the development of the budget.

The Cacadu District Municipality's consolidated financial statements were prepared to comply with GRAP.

When preparing the budget, the Cacadu District Municipality has complied with the requirements of the MFMA Budget Regulations and circulars which requires the municipality to draft the budget in a specific format and which specifies the contents of the budget.
